

I am commenting of the idea of getting rid of FM translators. I am a listener of KLOVE 91.1 in my area which is provided by a FM translator. I listen to them every day and would be terribly disappointed if I could not. KLOVE is connected with my local community by providing the community callendar. If K-LOVE was displaced by an LPFM, I believe many people in this area would drastically miss them. K-LOVE's service is definately in the public's interest to stay on the air.
